Tracking

Track & Trace

As **sender** you can track the shipment.

Single item

Please enter the tracking number or your shipper reference here:

<https://www.mailingtechnology.com/tracking/>

Tracking Number
0082800082808819315977

Parcel Details

Tracking Number	0082800082808819315977
Carrier	CTTE (CTT Express)
Service	CTTE (CTT Express)
Weight	2.51 kg
Destination	SPAIN
Current Status	Delivered

Parcel Journey

Date/Time	Event	Location	Comments	Code
2024-12-03 12:15:45	DELIVERED (stc)		DELIVERED	2100

You can **click** to get to the **tracking site of our delivery partner**

Please note that our delivery partners might show additional tracking events and offer extra delivery options eg change delivery address or live tracking in their local app. We advise to provide the details of the delivery partner to the receiver.

Spring

global delivery solutions

Multiple items

You can check up to **50 tracking codes** in XBS:

www.spring-xbs.com

The screenshot shows the Spring XBS tracking interface. On the left is a sidebar with a tree menu: 'Live Mode' (selected), 'Summary', 'Parcels' (selected), 'Temporaries', 'Batches', 'Reports', 'Verification', 'Groups', 'Parcel Groups OLD', 'Undeliverables', and 'Custom Exceptions'. The main area is titled 'PARCELS' and shows a search interface. The search bar contains 'G1WORLDWIDE / 70298859'. Below the search bar are dropdowns for 'Created' (set to 2021-02-05), 'Status' (status dropdown), 'Taken' (set to 2021-02-05), 'Ddp' (set to 00), 'Carrier' (carrier dropdown), and 'Source' (source dropdown). Below these are input fields for 'Country' (country dropdown), 'Consignee' (consignee dropdown), 'Shipper' (shipper dropdown), and 'Consignment' (consignment dropdown). A 'Search' button is on the right. A list of tracking codes is displayed in a scrollable box: L709169152NL, L709169153NL, L709169156NL, L709169132NL, C101645121NL, E010164502NL, RU049983567NL, RU049830124NL, RU049830129NL, RU049877350NL, RU049426405NL.

You will need a personal **User Account** and we are happy to create this for you.

9999	INFORMATION	Information

These trackings events can be shared via an API connection.

Spring

global delivery solutions

Local tracking

You will find more information and details on the tracking sites of the local delivery partners (postal and commercial).

Please note that our delivery partners might show additional tracking events and offer extra delivery options eg change delivery address or live tracking in their local app. We advise to provide the details of the delivery partner to the receiver.

Return tracking

You will find tracking events in xbs or in your customer portal. Please contact our team for more information.

Delivery notification via marketplaces

If you sell your products via a Marketplace you can activate delivery notifications from the delivery partner. Please reach out to us and we can provide the email address that needs to be white-listed.

Spring

global delivery solutions

Enquiries and Compensation

B2C enquiries

The **receiver** can contact the sender's CS team.

B2B enquiries

If you have a question regarding the delivery status, please send us an e mail to nachfragen@spring-gds.com

NO delivery scan/ In Transit

If the item has **no delivery scan**, we can check the **tracking status** for you and contact the delivery partner for further details. Please send us the **tracking code** and the question via email. You can send an enquiry up till **30 calendar days** (destinations in Europe) and **90 calendar days** (ROW destinations) after the last tracking event.

Example:

Shipment was scanned for acceptance on **15.04.2025** and there are no further tracking events. Further tracking events can vary per destination and total transit time.

Destination Europe:

You can send an enquiry up till **14.05.2025**.

Destination Rest of World:

You can send an enquiry up till **14.07.2025**.

We will not accept enquiries after this period.

Item stuck in transit

If you notice that items have not seen any tracking updates for a longer period we would still like to ask you to stick to the timelines mentioned above and always provide the declaration of non receipt.

Item is delivered/ Disputed delivery

If the item has a **delivery scan**, but the receiver disputes the delivery, you can send an email to us stating the **tracking code** and providing a **declaration of non receipt (DONR)**. The declaration must contain: **name and address of the receiver, tracking code, content, date and signed declaration of non receipt**. The document can be provided in a digital format, but please make sure that the receiver prepared the document personally. The date of the declaration must be later than the delivery scan. If there are doubts about the declaration we reserve the right to not accept the declaration. This applies also to missing information on the document. If you can't provide a form to your customer, we will accept a screen shot of the chat in your CS portal showing all details mentioned above. You can also use our **DONR template**.

Spring

global delivery solutions

We will check the tracking status and request a **proof of delivery** from the delivery partner. Some of our partners can provide a **digital signature** as proof of delivery.

If the item is declared **lost** by the delivery partner, we will accept **liability**.

You can send a disputed delivery up till **30 calendar days** after the delivery scan.

Example:

Shipment was scanned as delivered on **15.04.2025**.

You can send a disputed delivery up till **14.05.2025**.

We will not accept disputed deliveries after this period.

Item is damaged

If the item is **damaged** we need pictures of the damaged goods, the damaged packaging and a description what happened, eg package got wet during transport. You need to send this information **within 7 days after the delivery**. The receiver should report the damage to our delivery partner and provide the confirmation of the damage.

Example:

Shipment was scanned as delivered on **15.04.2025**.

You can send us a damage report up till **21.04.2025**.

We will not accept complaints for damaged items after this period.

If the item is declared **damaged** by the delivery partner, we will accept **liability**.

Service levels feedback

Once we receive your email we will check the status of the item and provide feedback:

First feedback within 24 hours = final feedback or acknowledgement

Final feedback within 30 days = case will be closed

Spring

global delivery solutions

Liability & Compensation

If the item is declared **lost** or **damaged** by our delivery partner we will accept **liability** and arrange a manual payment to your account. We will calculate the amount based on the **net value of the goods**. We will ask you to provide the seller invoice (invoice to your customer). Due to **ITMATT ruling** the value in XBS should correspond to the value on your seller invoice. If the value of goods prealerted in XBS differs from the value on your invoice the lower amount will be used for the calculation.

Postage costs will **not** be compensated for lost or damaged items. We will also not refund postage costs if an item is undeliverable.

Spring GDS will accept liability only if the item has been **scanned for acceptance**.

E-Com Tracked Plus	max EUR 500/shipment (net value of goods)
E-Com Tracked	max. EUR 200/shipment (net value of goods)
E-Com Collect	max. EUR 200/shipment (net value of goods)
E-Com Return	max. EUR 200/shipment (net value of goods)
E-Com Untracked	no compensation

Relabel

If your item can not be sent in the chosen service (wrong dimension or item weight), we will select another service and create a new label with a new tracking code. We reserve the right to charge the new service to you. You can find tracking updates under the old tracking code and you will see the new tracking code.

2025-02-10	RELABELLED	PULHEIM, 50259, DE	Parcel LR466950320NL re-labeled to E1008572891NL
2025-02-07	PARCEL		
14:09:27	CREATED		

Spring

global delivery solutions

Undeliverable items

Sometimes shipments can not be delivered because the address is incomplete or not correct, the receiver is not at home or refuses to accept the delivery, does not want to pay extra charges or does not collect the item from a retail location. **Undeliverable items** will be returned to Spring GDS from the country of destination and forwarded to you. Please note that we rely on the return service of our delivery partners and can not speed up this process. Your item will be scanned in our hub in Pulheim near Cologne and you will see the tracking event: **RETURN RECEIVED – UNDELIVERABLE**.

We will accept liability if the item has been scanned as undeliverable in the country of destination and has not been processed in our hub in Pulheim after 90 calendar days destinations in Europe and 180 calendar days ROW destinations. We don't accept liability if the item has been handed over to the last mile delivery partner after processing in Pulheim and is received damaged or not received.

Parcel Journey

Date/Time	Event	Location	Comments
2025-02-06 11:45:10	RETURN RECEIVED – UNDELIVERABLE (stc)	PULHEIM, 50259, DE	
2025-01-31 03:00:00	RETURN IN TRANSIT (stc)		SHIPMENT TRANSFERRED TO SELLING PARTY
2025-01-30 05:07:00	AT LOCAL DEPOT LMC		SHIPMENT SORTED IN SORTING CENTER
2025-01-29 21:52:00	AT TRANSFER DEPOT LMC		SHIPMENT COLLECTED AND IN SORTING PROCESS
2025-01-29 11:50:00	RETURN IN TRANSIT (stc)		ADDRESSEE UNKNOWN/NOT AT HOME, RETURN TO SENDER

Customs handling

We dont have any influence on the handling of items by customs authorities and can not check the status of items under the tracking event **in customs**.

You can find more information in our XBS tracking eg **THE ITEM IS BEING PROCESSED BY CUSTOMS** and **ITEM RELEASED BY CUSTOMS**

If items are put on hold during customs checks, they will be returned. This can have a negative impact on other shipments, that are put on hold and released at a later stage.

Spring

global delivery solutions

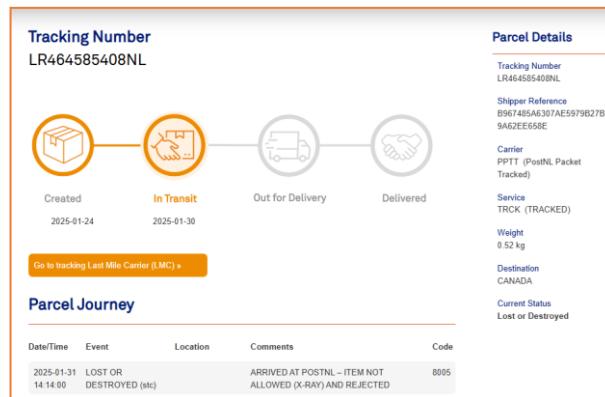

XBS customs data check

If you use our Spring CLEAR solution for your DDP shipments we will spot-check items (including order numbers) on a regular basis. If the HS code is not correct we will put the item on hold and ask you to provide a new label with the correct HS code. Your item will be sent with the new label.

Dangerous Goods

It is not allowed to send dangerous goods. If we or our network partners find dangerous goods during processing, items will be destroyed.

The tracking status is **Lost or Destroyed**

You can find further information on our website:

<https://www.spring-gds.com/support/dangerous-goods/>

International Service Alerts

With the International Service Alerts we keep you informed on the consequences that current events in the world might have on the delivery of your international shipments

<https://www.spring-gds.com/support/international-service-alerts/>

If you provide an email address we can add you to our email newsletter.

Holiday schedule

We publish an overview with International Holidays and opening hours. This can have an impact on orders, transit times and deliveries.

<https://www.spring-gds.com/support/international-holidays/>

Safe Place Delivery

The receiver can give the last mile carrier permission to leave the item in a **safe place**. If the item is lost, Spring GDS can not accept liability.

3rd party parcel lockers

The receiver can arrange the delivery to a **parcel locker** of a **3rd party**. If the item is lost, Spring GDS can not accept liability and the receiver needs to contact the 3rd party.

Terms & Conditions

You can find our general terms and conditions here:

<https://www.spring-gds.com/de/terms-conditions/>
